DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 17-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Glorioso (3,689,163).

Regarding claim 17, Glorioso discloses two sub-elements (11,12), each having at least one body axis, each of these sub-elements having a variation in a manipulation property along its axis and these axes have some angle with respect to each other (see figures 1-3).

Regarding claims 18-19, Glorioso teaches that the elements (11 and 12) are birefringent prisms (column 2, lines 34-37).

Regarding claim 20, Glorioso teaches that the elements have the shape of a wedge (column 4, lines 59-60).

Allowable Subject Matter

3. Claims 1-16 and 21 are allowed.
